## **Housing Information and Cost**

One- to four-bedroom apartments are available, and housing costs vary depending on the size of the apartment and which complex you're assigned to live in during your program.

Housing costs, which include all amenities listed above:

**All Complexes:** \$71 or \$90 a week\*

These rates are based on the number of bedrooms and varying amenities among the complexes. They do not include any applicable taxes.

\*Some exceptions apply.

In assigning apartments, all participants are separated by gender and whether they are over or under the age of 21. Cast Members living in our housing complexes who are under the age of 21 upon arrival are placed automatically in a Wellness apartment where alcohol is prohibited. All others are placed in Non-Wellness apartments, unless participants request otherwise upon arrival.

All apartments are designated non-smoking.

Housing costs are automatically deducted weekly from our Cast Members' paychecks, so they don't need to worry about turning in a check at the beginning of the month. We make every effort to ensure the living component of our program is as convenient as possible for our participants.
